Subject Re: DeGroate Petroleum

Dr. Yang

Just an FYI

We have almost completed the renovations to the mobile home here on our property so that we can have someone living on site and providing security for the plant.

We are planning on removing the three out side tanks next to our lube building this spring.

If you should have any other questions please feel free to contact me or the folks over at Enviro forensics.

Sincerely  
Scott R. DeGroate
